55 HVAC VISUAL CARDS · 2026 A2L EDITION

How to open your app

All 55 cards · Diagnose · Startup checklist · PT Chart · SH / SC · Formulas · Notes

Your app lives at this link. It opens in your web browser — no app store, no sign-up.

hvac-field-cards.pages.dev

On iPhone

1. Open the link in Safari.
2. Tap the Share button, then “Add to Home Screen” (you may need to scroll down).
3. Open the app from the new icon on your Home Screen.

On Android

1. Open the link in Chrome.
2. Tap the three-dot menu, then “Add to Home screen” (on some phones, “Install app”).
3. Open the app from the new icon on your Home screen.

On a computer

1. Open the link in Chrome or Edge and bookmark it.

After you add it to your Home Screen, open it once from the icon while you have signal. After that, it works without signal, even in a basement or attic.

Your job notes and checklist are stored on this device, in your browser. Always open the app from the same icon or browser. Clearing your browser data deletes them.

Field reference only. Always confirm with the manufacturer's data and the unit's rating plate.
